

Installation Specifications

At www.CORONADO.com product specifications can be downloaded in CSI format.

Choices Specific to Virginia Ledge

- Standard Colors:** Aspen, Cape Cod Grey, Coastal Brown, Golden Sand, Hillside, Storm Brown or Any Custom Color
- Grout Joint Width:** Drystack
- Grouting Options:** Drystack
- Grout Joint Color:** Color should be added to mortar to complement stone color.
- Accessories:** Corners, Complementary Tiles, Wall Caps, Post Caps and more. (See Accessories section of binder)

Special Installation Notes

- Pattern:** Virginia Ledge consists of stones that are 2" and 4" in height, which allows the installer to periodically break up long horizontal joints. Do not install stones vertically. Blend the stone on the wall from several different boxes to ensure proper color and size variation. **See catalog photos for recommended installation pattern.**
- Chalk Lines:** Should be used by installer to ensure a straight and level pattern.
- Vertical Joints:** Should be no higher than 4" to 6" on average.
- Horizontal Joints:** Should not exceed 6' to 8'.
- Sealing:** Not required. However, if installed on an exterior exposed to excessive water from runoff or improper drainage, we suggest the product be sealed in that particular area to protect it from staining or spalling during freeze-thaw cycles.
- Freeze-Thaw:** When installing stone in a freeze-thaw environment, extra care should be taken to ensure a full coverage of mortar on the back of each stone, which will prevent water pooling behind the stone after it's been installed.
- Drystack:** A polymer modified mortar should be used for all drystack applications.
- Installation Info:** Download Coronado's latest installation instructions at www.coronado.com for information on mortar and installation recommendations.

Profile Properties

- Size:** Virginia Ledge is a combination of individual stones and panelized stones, which makes it easier to install and harder to detect the panels. Stone sizes are 2" or 4" in height and up to 20" in length. Stones sizes within the panels range from 1/2" to 4" in height. (All sizes are nominal).
- Thickness:** 1" to 3"
- Weight:** 7 to 10 lbs. per square foot.
- Packaging:** Available in big boxes (100 sq ft Flats & 100 lft Corners) or Dura-Paks (12.5 sq ft Flats & 12.5 lft Corners).
When purchasing Virginia Ledge, coverage is based on installation with tightly-fitted joints.
