

## Installation Specifications

CSI – 3 Part Spec available at [www.CORONADO.com/ArchitecturalResources](http://www.CORONADO.com/ArchitecturalResources)

### Choices Specific to Coronado Honey Ledge

- Standard Colors:** Huron, Rocky Mountain Rundle, Sioux Falls, Carmel Mountain, Shasta, Grey Quartzite, Chablis, Palomino, Four Rivers. Custom colors may be available for an upcharge.
- Grout Joint Width:** Drystack
- Grouting Options:** Drystack
- Grout Joint Color:** Color should be added to mortar to complement stone color.
- Accessories:** Corners, Complementary Tiles, Wall Caps, Post Caps and more. (See Accessories section of binder)

### Special Installation Notes

- Pattern:** Do not install stones vertically. Blend the stone on the wall from several different boxes to ensure proper color and size variation. **See catalog photos for recommended installation pattern.**
- Chalk Lines:** Should be used by installer to ensure a straight and level pattern.
- Vertical Joints:** Should be no higher than 4" to 6" on average.
- Horizontal Joints:** Should not exceed 6' to 8'.
- Sealing:** Not required. However, if installed on an exterior exposed to excessive water from runoff or improper drainage, we suggest the product be sealed in that particular area to protect it from staining or spalling during freeze-thaw cycles.
- Freeze-Thaw:** When installing stone in a freeze-thaw environment, extra care should be taken to ensure a full coverage of mortar on the back of each stone, which will prevent water pooling behind the stone after it has been installed.
- Drystack:** A polymer-modified mortar should be used for all drystack applications.
- Installation Info:** Download Coronado's latest installation instructions at [www.coronado.com](http://www.coronado.com) for information on mortar and installation recommendations.

### Profile Properties

- Size:** Coronado Honey Ledge is a combination of individual stones and panelized stones, which makes it easier to install and harder to detect the panels. Individual stone sizes range from 2" to 4" in height and up to 20" in length. There is a small percentage of larger individual stones, that range from 5" to 6" in height, not exceeding 10" in length. Stones sizes within the panels range from ½" to 4" in height. Corner returns range from 3" to 11" (All sizes are nominal).
- Thickness:** Standard stones average 1". Optional stick-out stones range from 1¼" to 2" (nominal).
- Weight:** 7 to 10 lbs. per square foot.
- Packaging:** Available in big boxes (150 sq ft Flats or 100 ln ft Corners) or Dura-Paks (12.5 sq ft Flats or 12.5 ln ft Corners). **When purchasing Coronado Honey Ledge, coverage is based on installation with tightly-fitted joints.** (Note: Square Footage and Linear Footage quantities may vary per region)
