GRANITE PEAK

Installation Specifications

CSI – 3 Part Spec available at www.CORONADO.com/ArchitecturalResources

Choices Specific to Granite Peak

Standard Colors: Mount Vernon, Northland, White, Silver Ash, Vista Pointe, Summer Cottage. Custom colors may be available for

an upcharge.

Grout Joint Width: Drystacked Grouting Options: Drystacked

Grout Joint Color: Color should be added to mortar to compliment stone color.

Accessories: Corners, Complementary Tiles, Wall Caps, Post Caps and more. (See Accessories section of binder)

Special Installation Notes

Pattern: Do not install stones vertically. Blend the stone on the wall from several different boxes to ensure proper color and

size variation. See catalog photos for recommended installation pattern.

Chalk Lines: Should be used by installer to ensure a straight and level pattern.

Sealing: Not required. However, if installed on an exterior exposed to excessive water from runoff or improper drainage, we

suggest the product be sealed in that particular area to protect it from staining or spalling during freeze-thaw cycles.

Freeze-Thaw: When installing stone in a freeze-thaw environment, extra care should be taken to ensure a full coverage of mortar

on the back of each stone, which will prevent water pooling behind the stone after it has been installed.

Drystacked: A polymer-modified mortar should be used for all drystacked applications.

Installation Info: Download Coronado's latest installation instructions at www.coronado.com for information on mortar and

installation recommendations.

Profile Properties

Size: 9" in height and 18" in length. Corner returns range from 3" to 12" (nominal).

Thickness: 3/4 to 1" (nominal).
