### Choices Specific to French Country Villa®

- Standard Colors:** Bordeaux, Grey Quartzite, Champagne, Verona, Coal, Volterra. Custom colors may be available for an upcharge.
- Grout Joint Width:** Standard ½" Average Grout Joint or varies from ¼" to 1" Average Grout Joint
- Grouting Options:** Deep Raked, Full Brushed, Full Smooth Tooled, Overgrout or Rough Brushed
- Grout Joint Color:** Natural Grey, Natural Off-White or Complementary Color
- Accessories:** Complementary accessories are available (See [www.coronado.com/trimaccessories](http://www.coronado.com/trimaccessories))

### Special Installation Notes

- Pattern:** To achieve the appearance of French Country Villa® as shown in the catalog, either the top or bottom of each stone MUST be installed on a level or near-level position. Do not install stones vertically. Blend the stone on the wall from several different boxes to ensure proper color and size variation.  
**See [www.coronado.com](http://www.coronado.com) for photos of recommended installation pattern.**
- Chalk Lines:** Should be used by installer to ensure a straight and level pattern.
- Grout Joints:** A grout joint is recommended, stones should be placed about ½" apart from the back of the stone, depending on the angle on the stone. Keep joints tighter in areas where three or more stones intersect because the joint will appear larger after grouting. In other words, the more you rake the grout into the joint, the smaller the grout joint appears. The fuller the grout joint, the wider the joint appears.
- Sealing:** Not required. However, if installed on an exterior exposed to excessive water from runoff or improper drainage, we suggest the product be sealed in that particular area to protect it from staining or spalling during freeze-thaw cycles.
- Freeze-Thaw:** When installing stone in a freeze-thaw environment, extra care should be taken to ensure a full coverage of mortar on the back of each stone, which will prevent water pooling behind the stone after it has been installed.
- Installation Info:** Download Coronado's latest installation instructions at [www.coronado.com](http://www.coronado.com) for information on mortar and installation recommendations.

### Profile Properties

- Size:** Stone sizes range from 2" to 7" in height and up to 18" in length. Corner returns range from 2¼" to 24" (nominal).
- Thickness:** 1½" to 2" (nominal).
- Weight:** 7 to 10 lbs. per square foot.
- Packaging:** Available in Big Boxes (110 sq ft Flats or 100 ln ft Corners) or Dura-Paks (15 sq ft Flats or 13.5 ln ft Corners).  
**When purchasing French Country Villa®, coverage is based on installation with a ½" joint at the back of the stone.**  
(Note: Square Footage and Linear Footage quantities may vary per region)
